## Customer Reviews

This book will definitely make your day! The author has the ability to recount stories in a funny and engaging way. I didn't even notice I was done reading the entire book in one sitting! The stories look legit, which makes me wonder where did he find his sources. Some are creepy; some are nasty, while some are downright funny. This will give you a behind-the-scenes look at what's happening on Craigslist and how to deal with all sorts of people you may encounter. Now, this is something my friends would probably love reading! Highly recommended!

I was lured in by this catchy cover and the content did not disappoint. First of all, be aware this is not Shakespeare. There is some amateur writing here but I don't think this is an oversight. The stories are supposed to be from interviews from real people, and your average person is not a great writer. I liked this approach, it felt authentic and not over-polished. Great way to pass the time, made me laugh many times, other times saying "oh my god!" out of shock. Definitely worth 3 bucks.

This book was very entertaining. I found it relaxing to read while waiting for the bus. The stories are short and easy to read. Some are hilarious, some pretty scary. Others are a great way to find out how real people got scammed and how it happened

This book is one of the funniest I have read all year. Some of the stories are groaners, but even those are charming in their own way. The stories featured in here were genuine eye openers, that is for sure! Some were terrifying, other hilarious. If you want something sophisticated that you have to think about, this is not for you. But if you just want to put your mind in neutral, laugh, cringe and be shocked then this book is for you.

I think I enjoyed this book so much because I know so many people who have either a funny or creepy Craigslist story. Once I sold a car to a guy and a week later he called me up got very violent demanding I give him some money back so he could make so BS repair I didn't tell him about. He didn't want his money back, just a few hundred dollars back from me. Later I found my old car back on Craigslist for far more than he bought it off of me for. So, he would buy cars cheap, intimidate the previous owners into giving him some cash back, then sell the car for more. I read a version of this scam on the Father and Son Hustle story. Good Read!

Wow! This was surprisingly entertaining. Some of the stories are absolutely bizarre, but I do not doubt they are true. As the preface states, there are a lot of creepy, crawly shady people in the world. I laughed out loud at some of the more zany ones, then found myself wide eyed at the scam stories. Will there be a volume 2??

Pretty sure I will never deal with Craigslist after reading this, whoa! I've lived without them thus far and will continue that practice! Be careful if you ever go there, I've also heard bad things about it in general. Put all of it together and I say no thanks to the entire operation!

There are plenty moments of greatness in this book however it needs a good editor. Within the first 20 pages I was cringing almost constantly with all the typos in the book . I'm calling them typos but I don't know if they were or just plain spelling errors. But I'd say 75% of the pages had spelling mistakes on them , and quite often there were other blatant errors in the articles. One I just read no starts off talking about a dresser they had for sale then halfway down the page they switch it to being a desk. Which is it a dresser or desk? But despite the editing problems, there are some hilarious situations in this book, and some great caveats for people who use Craigslist. Parts of this book are excellent as long as you can overlook the editing problems. Should they get those fixed I would probably give this book before to five star rating. It really has the potential just needs the finesse tweet .
