The format of Property allows for a variety of teaching methods and applies easily to courses ranging from three to six hours. The Ninth Edition retains the organization and basic content of prior editions; however, it includes more introductory text to give students the necessary background before examining the difficult problems encountered in the law of property. Many sections have been reorganized to facilitate more efficient coverage of the material. The authors updated the book with relevant cases and materials while maintaining the core property material such as estates in land material, emphasizing historical development, with additional cases and notes to show the extent to which the past governs the present. ## Customer Reviews

I hate this book. It's poorly organized and the writing is worse. Can I complain about the font? I hate the font. Go ahead and be the one book that uses a different font and heading format than all the

other thousand casebooks. Extra star because it gets the information across eventually.

The book I received has wayyyy more writing and highlighting than what was expected. It can be distracting especially when you're trying to digest something like Property. But for the price, I can make it work. I just wanted to put this info out there for others to consider...

The comments for this purchase was not quite accurate. There was more writing and highlighting than was declared but for the price but for the price it was ok. The remarks should have read something like this alot of highlighting on important points but legible. Cover and pages intact. I would recommend this book to a financial struggling student.

Perfect book For property law.

Good text for school
