I recently attend a weekend cooking school where we played both Foodie Fight and the Trival Pursuit Game dedicated to food. Foodie Fight was much more fun, more interesting questions, better catagories and just the right difficulty. The school was attended by "foodies" and some new to cooking and all enjoyed the game. It's a winner!

I got Foodie Fight for Christmas and my friends and I have had great fun playing. You don't need to be a food fanatic or expert to have fun playing. I have learned things and had some great laughs at some of the questions and answers. I only wish they had another set of cards!

Saw this at xmas time and thought it would be a fun gift for a family member. I was worried that the questions would not be challenging enough being that the person is a consumate foodie, as is another family member who would be present during the holiday. We played the game and even

they couldn't answer all the questions! Game is designed really well, good variety of questions even for the novice foodie and I like how you can play a short game or a long game. Good fun!

My wife and I enjoy playing this food trivia game, which tests one's knowledge of a broad range of cooking-related topics including cooking ingredients, celebrity chefs, restaurant service, and wine selection. When you play you learn new things in a fun-filled way. Particularly valuable are the questions on table etiquette, culinary science, and nutrition. However, the questions are uneven in level of difficulty. Some of the tough queries concern such items as a French chef, a little-known food author, an obscure movie, or a lesser-known type or style of food. This is compensated for by a substantial number of true or false and multiple choice questions. The popular culture questions can be deceptive or just plain difficult, but answers are often within the realm of knowledge of the average person. A good thing about the game is that it does not come easy for the winner. There are six categories, and the player who gets three questions correct in all six categories fills his six cardboard dinner plates and wins. Answering a question correctly means another turn. However, players who get a question in a category they have completed must still answer the question correctly to get another question, hopefully in an uncompleted category. Therefore, a player who gets ahead often finds other players will quickly catch up. This provides the sort of end-of-the-game competition that everyone will enjoy.

The Sequel to this game is much better. If you're planning to only get one, go with it! This one has too many questions about TV shows and etiquette and not enough about cooking/food. It also lacks the fun picture chart that the sequel (foodie fight remix) has.

This game is for anyone who binge watches every cooking show on TV, works as a chef or server in a classy restaurant, AND studies every cookbook and cooking magazine, cover to cover. Degrees in food science are a plus!! We tried this with a mixed group, and after one round of questions, we were uninterested and bored as only two of 17 people could answer any one question. We switched to a different game. This is being given away.

This game is easy to play and doesn't require a table. The format is similar to other trivia games and easy to follow. However, the questions are REALLY hard. Half of the questions pertain to people famous in the 50s and 60s. This is NOT a game for young people who like food. I'm a fairly experienced cook and American native, and I didn't know most of the cultural questions and almost

none of the cooking related questions. I wouldn't recommend this.

Fun, educational, and easy to play. This game will not disappoint. Learn cooking techniques as you go. Even if you don't like to cook, you will have fun and learn new things playing this. Easy to understand and follow.
