This author is an absolute moron. For starters, there are numerous spelling errors throughout the text. Likewise, I doubt this text ever passed through an editor's hands because there are tons of typos and repeated words. He also repeats himself at least twenty times throughout the chapter. I have counted multiple instances in which the author also states information that numerous criminology professors of mine have refuted. He even goes so far as to make a statement about the beginning of psychology that is completely inaccurate. Also, he wastes your time talking about conspiracy theories! He is a COMPLETE joke. Avoid this textbook at all costs. NOT worth your time or money. Do not force your students to read this crap.

The author obviously has no clue about the REALITIES of day to day life in prison. He may be an

expert on the theory of "corrections," but the entire chapter on this issue has no basis in how things actually work in the correctional setting. I spent 2 consecutive decades of incarceration within the maximum security prisons of Texas. I was released several years ago and today aid convicts in 14 different states with legal research, and as an advocate on their behalf, as well as aid attorneys in preparing clients for life behind the razor wire. I am amazed this text is accepted by many institutions of higher education as an authoritative source of insight into the overall CJ system in America.

Hello studentsI'm giving this book one star, but I don't know y I'm giving this book even one star. This book or provider even doesn't deserve one star, now you want to know y it's like that bcz this book has lot of issues with it. This isn't compatible with windows 8 and Win 8.1, windows phone, mostly old Android phones neither with cloud reading web doesn't download this book for reading.
