# Business Organizations: Cases And Materials (University Casebook)

## Synopsis

This title is a part of our CasebookPlus<sup>®</sup> offering as ISBN 9781634601634. Learn more at CasebookPlus.com. The Unabridged Eleventh Edition offers detailed information on corporate law and covers new principal cases, text, and explanatory materials designed to illustrate the development of corporate law. In preparing this edition, Professors Eisenberg and Cox reviewed all the principal cases and, where appropriate, re-edited them to tighten the writing while preserving a full-bodied presentation of the facts and discussion.

## Book Information

Series: University Casebook

Hardcover: 1300 pages

Publisher: Foundation Press; 11 edition (May 8, 2014)

Language: English

ISBN-10: 1609304357

ISBN-13: 978-1609304355

Product Dimensions: 2.2 x 7.8 x 10 inches

Shipping Weight: 5.1 pounds (View shipping rates and policies)

Average Customer Review: 2.3 out of 5 stars [See all reviews](#) (6 customer reviews)

## Customer Reviews

The substantive content of the textbook is fine (typical Corporations textbook) but the text itself is RIDDLED with typos and other errors. I think the publisher/editors should be embarrassed, it seems like no one proofread this book at all-- even though most of them are small and didn't impede my understanding, it's seriously irritating to have to read many sentences twice because the author left out a word or seemingly started a new sentence in the middle of the last one. And spelling parties' names wrong or simply using the wrong name (Roland instead of Ronald, for instance) is pitiful. I guess if you're looking at this textbook it's been assigned to you and you have no choice but to buy it so my ranting means nothing, but prepare yourself for an extremely shoddy book for your \$200.

This book's authors, editors, and publisher should be ashamed of this product. It is evident that no one took the time to edit or proofread the material. The book is riddled with typos and sentences

that simply are not grammatically correct. Professors, please take this under advisement and don't make your students contribute to this poor product's success.

Law Students: Please be advised that the quality of this book is absolutely terrible--unless, of course, wading through a quagmire of typos while you are trying to prep for class sounds fun. As a law student, I had no choice but to pay over \$200.00 for this book, because it was assigned for one of my courses. Unfortunately for me, the number of typos in the book make already-difficult reading nearly unbearable. The publisher/editors of this book should be ashamed of this product. A brand new batch of law review editors from a bottom-tier law school could have done a better job editing this book than these editors did. The worst part is that some of the typos actually obscure the meaning of the cases and law review articles cited within the text (e.g., a case where a corporate board member's name was so egregiously misspelled that it appeared that there was an entirely separate member on the board, which would have been determinative as to who made up the majority of board members, which in turn would have been determinative of the case outcome). It is utterly unacceptable to sell law students--who are already short on time, and bled dry of financial resources by textbooks like these--such a subpar product. It is especially upsetting to have to spend extra time trying to figure out what the authors were attempting to say because the typos are so bad that the sentences do not even make sense. Word to the wise law student: avoid this book like the plague. Buy Examples and Explanations, pay attention in class, and if you need to fill in a gap, check this book out at your law library.
