Problems And Materials On Commercial Law, Tenth Edition (Aspen Casebook)

Synopsis

A straightforward look at all relevant statutes and major cases in the law, *Problems and Materials on Commercial Law* features complete materials and problems on sales, payment systems, and secured transactions. The text continues to be up-to-date, covering the latest changes in U.C.C. Articles 2, 3, 4, and 9--as well as other relevant laws--and the cases related to each. Interesting, well-crafted problems progress from easy to more complex, sharpening students' skills and enabling them to understand the field's complexities and difficult statutory language. A sensible modular organization follows the order of the U.C.C., allowing for greater flexibility in teaching. This effective format and manageable length makes *Problems and Materials on Commercial Law* concise and efficient. New co-author Stephen M. McJohn brings his considerable experience and expertise to the Tenth Edition. A professor of law at Suffolk University, McJohn has written many law review articles on copyright and commercial law and is the author or co-author of major texts in the field. Important new cases and developments are presented as well as new and revised Problems.

Customer Reviews

I will graduate law school in 6 months and this is the worst textbook I have ever had. Pro: It provides hundreds of great sample questions. Cons: 1) There are only a handful of the sample questions that the book provides answers for. 2) The content could be broken down much better (i.e. to find out what is required to be a holder in due course you must read about 40 pages). 3) It sometimes lacks a good introductory paragraph that provides an overview for each topic (i.e. it dives straight into the meat of the matter without telling you where you're going or why). 4) It also doesn't do a good job at defining any of the terms used in commercial law. 5) Lastly, it constantly is referencing you to the UCC (i.e. for holder in due course the book states "The basic definition is found in §3-302(a), which you should read carefully." and doesn't provide you with either their definition or the UCC definition. If your class requires this book, I highly suggest buying Gilbert Law Summaries for both Commercial Paper and Secured Transactions. They provide excellent summaries of the topics covered in the Problems and Materials on Commercial Law and provide sample T&F questions as well as essays (both with detailed answers). If you're looking for a book to teach you about commercial law, I would look elsewhere.

Super boring. Would like more cases and less problems. However it does the job to teach you how to analyze problems. The answers would be nice since there are so many hypotheticals.

Useful guide to learning a new subject. The problems are very helpful in understanding the substance of the tech.

Good read for any one interested in Problems and Materials on Commercial Law. Excellent for Law Students at any level.

Nice that the book helps you out on where to look up answers to the questions. The case brief book was a must
