## Customer Reviews

I was never familiar of this casino game before. I just saw this, usually on TV, being played but I didn't have idea what it was called. So basically this book introduced craps to me. By reading this book, I understand how the game goes and how to act properly while playing the game as it lists proper etiquettes in playing. Although I am not fond of going to casinos, when the time comes, at least I'll know what to do.

I wanted to learn the basics of the game, and this book laid everything out super simply. It was a great way to learn how craps is played, and some strategies for understanding the betting system. I even won a few games after reading this book!

What a waste, I don't know how many pages are in this book as they are not numbered. I do know that there are not many, I read it in about 20 minutes. I expected strategy's as the title suggest but there are only some common sense rules. There is nothing in here you can't get off the web. Save your money.
