You think soft toy shenanigans just happen in Woody's Room? Sock monkeys (the toys with the foot fetishist in mind) are flexible enough to make a gold medal gymnast blush and they're not hiding their love anymore! So get a pair and this book--see just what they can do. **WARNING:** This is how baby sock monkeys get made! Unless you want a population explosion be sure to teach your plush pets about safe sex! R. What a delightful and refreshing book! It takes an all too often serious topic and makes light of it. I know what you're thinking "I don't even have a sock monkey." No worries. This book provides you with a pattern to make your very own tantric sock monkey that will fill you with warm fuzzies when getting down to business. It is important that her partner support himself by holding her tail with both paws. Each page highlights a tantalizing position from the Kama Sutra played out by sultry sock monkeys baring it all. What do you mean you didn't know there were multiple ways to kiss? Let the stuffing loose and take note, as you become a master of yourself. From the Swan to the Wrestler, make sure you limber up your sock monkey to prevent any

stretched seams or loose stuffing. It should be fun and no one should be injured. Always practice safe monkeying around. Have your seams checked often and practice good hygiene. Beware of the Dryer of Doom. Maybe treat yourselves to some chocolate dipped bananas? If you love lighthearted reading this is the book to pick up. It would make a great gift for so many special occasions and one that will truly be remembered for a very long time. I hope you enjoy it as much as I did.*This book was provided in exchange for an honest review*You can view the original review at [San Francisco Book Review](#)

This is a great book. I ordered this book as a "beginners guide" for my honeymoon. I really like that there aren't pictures of real naked humans performing the positions. Instead, the sock monkeys demonstrate everything clearly, but in a much less vulgar manner. Not that sex is vulgar, but I didn't really like the idea of having a book full of other naked people. All that to say, the sock monkey pictures in this book are helpful because they show what the position should look like. I enjoyed the way the descriptions of each position were written as well. It says things like "with their seams touching..." It was a clever and cute way to explain and describe how each position works. This book is helpful and super playful. My husband and I had fun just flipping through the pages and reading the descriptions together. Some of them are hilarious! Toward the end of the book, it includes a couple of pages with instructions for both the "boy monkey" and "girl monkey" when giving oral sex. It was super helpful, and my hubby was happy to let me practice using my "soft sock monkey mouth." ;) The only thing I didn't like about this book was that it doesn't have all of the possible sex positions in it. I think these can be found in other books, though. This book just includes some of the more basic positions (with the exception of one where somebody at some point stands upside down). It's a good starting place, and even though it doesn't seem to have very many positions, there are enough to keep you busy practicing for a while. Over all, this is a super fun, informative, and helpful book. I would definitely recommend this book to other customers.

So cute and so funny! But it's also very useful; if you can stop laughing you can actually learn something from these clever little monkeys! This would be perfect for a couple with younger kids, who don't want more graphic tantra photos around the house, in case the kids find the book. :)

I always wondered what my collection of sock monkey's did when I wasn't looking; well now I know! It also explains the mystery of where those tiny sock monkey's come from. I am now wondering if all missing socks are piled up somewhere, hoping and praying that they will be turned into a sock

monkey so they too can practice Kama Sutra one day.... Going to knock the dust of my monkey.

This book is too adorable! Sock monkeys posed in silly sex positions! What more could you want? Oh and the descriptions use sock monkey appropriate wording too! Got this as a gift for my roommate and he absolutely loves it. Perfect silly coffee table book. Definitely gets a laugh out of our guests.

Perfect for couples wanting to learn/experiment with new positions, be able to feel comfortable with looking at the pictures and not feeling a sense of intimidation sweep over you. Also, it great NOT having to worry about indecent photos being found by the kids in the house.

This will never stop being funny to me. When ever I may be feeling down .. just a look through this book is all it takes to bring a laugh.
