Product Dimensions: 0.5 x 6 x 9 inches

Shipping Weight: 7.2 ounces

Average Customer Review: 3.5 out of 5 stars [See all reviews](#) (10 customer reviews)

Best Sellers Rank: #1,744,753 in Books (See Top 100 in Books) #114 in [Books > Law > Family Law > Marriage](#) #14696 in [Books > Textbooks > Law](#)

Customer Reviews

I recently read this book and it deals with the best kept secret in the industry!!!! I was some what skeptical at first, but when I found out that it is perfectly legal, I couldn't put the book down! I had never heard of the "pure trust" and when I made the discovery, I was astounded! I didn't know that I could LEGALLY LOWER MY SALARY AND TAXABLE INCOME WITHOUT TAKING A PAYCUT!!!! In addition, quite a few bills I currently pay (i.e. utilities, mortgage, etc.), could LEGALLY become legitimate expenses of the pure trust!!! You HAVE to get this book to find out how! Don't believe me? How about this. It tells you why this particular type of trust is preferred by some VERY prominent people (which it even lists, by name)! In the past, this was something that was reserved only for the rich, but not anymore! Even if you don't think you need a trust or even if you already have a trust, the information you will gain from this book is second to none! Even if you don't want to know, you NEED to know. You'll kick yourself later if you don't!

Ignorance of the law is no excuse, but that does not prevent these "cpa/lawyer-types" in their reviews from going on and on in an effort to keep you ignorant. How many "lawyers/cpas" do you

know that give free advise on their own time? So after skimming a few of these "pro bono" editorials, I concluded that the "truth hurts" and I ordered the book. Thanks! This book concisely gives you what you need to know to make an informed decision as to whether or not to pursue Common-Law trusts any further. And that is all I wanted. Yes, there is an additional charge for a form-filled, step by step manual, but you know ahead of time if it is worth pursuing. In my mind it is. A one-time charge of \$500 is peanuts compared to the liability protection. Good info that the global elite do not want us to have.

Great seller! !! Would recommend to friends and family!

To keep your interest and keep this short simply know that this book in my hand contains NO LEGAL ADVICE nor does it contain ANY INFORMATION ON HOW TO ESTABLISH A COMMON LAW TRUST. This book is simply the precursor to the authors' self-help book which runs (...)! Also this book contains NO LEGAL CODE!!!IRS of otherwise. The authors' obviously expect the reader to have a lot of faith in the truth of their deductions.It may be true that Thomas Jefferson and Ross H Perot have established common law trusts but they had their lawyers do all the work!!! The actual paperwork of the trust is simple but it is necessary to pay for advice on how to file correctly. ALSo, you may want to have a "professional" overview and inspect your work to make sure the IRS will have no problems with you.Anyone reading this book should look for a book which contains encoded filing information...actual court cases and actual code always helps the reader understand and believe at the same time!!

I was recommended this book by my father. Everyone needs to know about this form of protecting assets no matter what level of income you may be. This book is easy and fast reading. Anyone concerned about securing their financial future NEEDS to read this text.
