Customer Reviews

When you go to a divorce lawyer, you pay \$350 an hour for practically nothing. This book actually gives you some concrete guidelines. It ain't much, but it is much, much more than that \$350/hour guy. I one-upped my lawyer after a 30-minute read.

I actually sent a client to this gentleman for mediation. He did a great job. I ordered this book and it is a nice and informative piece written in a way that a non-lawyer can easily understand. This is a good place to start if you are faced with this type of battle.

This book is a MUST have for anyone going through a custody case. I read it in about 3 hours and was amazed at the step by step information it gave. I have it with me when I visit my attorney (who also loved the book) and when I am in court. It is a great stepping stone to prepare you for what's happening and what happens next. GREAT BOOK!

It's a very informative book. I feel like I have much more knowledge about the process than when I've spoken to court clerks or read a variety of articles. I feel like I can take the information to help me with moving forward with an attorney.

This book is written in language that is easy to understand. The flow of the chapters and the step by step requirements in my preparation is 're-assuring. The stages of court appearances is in accordance with best practices and certainly highlights the importance of gathering evidence and documentation as well as securing the service of a seasoned Attorney who specializes in family law. Very empowering.
