# The Worst Interests Of The Child: The Trafficking Of Children And Parents Through U.S. Family Courts

## Synopsis

Keith Harmon Snow's meticulously documented investigation into sex-trafficking of children by American judges is not to be missed. This scandal is one of the most important censored stories in our country today. I might not believe what Mr. Snow has written if I had not independently investigated two dozen cases not discussed in his article, and found ample evidence of the precise dynamics he lays out for us here. Anyone who says they care about child welfare needs to learn what is happening in family courts and take action until it is stopped. Once you start reading this exposé, you won't be able to put it down. "Lundy Bancroft Author of Why Does He Do That? History's largest-selling book on domestic violence

## Customer Reviews

Keith Harmon Snow's book is a must-read. For the first-time a writer of courage has called the corrupt US family court systems what they are - criminal organized trafficking of children for sex abuse by, largely, elite, rich, white men. What PA AG Kathleen Kane is exposing now in the PA court system is exactly what is happening in Maine with Judge Judge Moskowitz and many other judges. When will DOJ and the FBI open a federal investigation into the racketeering of Maine's judges, prosecutors, cops and child protection staff? How many more lives must be destroyed? Thank you

Keith for your courage and your determination not to be silenced. May God bless and protect you. Thank you. Lori Handrahan <http://www.data4justice.org>@LoriHandrahan2

Following up on his emotionally shattering article, A LIFE SENTENCE \* U.S. FAMILY COURTS SACRIFICING MOTHERS & CHILDREN' Family Courts Behind an Epidemic of Pedophilia & Judicial Abuse, published online by Conscious Being Alliance and spread widely over the internet via mothers' custody websites in 2012. When I read that piece, I realized that Keith Harmon Snow stands as a giant among the very few investigative reporters there who, despite the real dangers of doing so, expose the evil doings of the worst of the worst of our society. He nails the corrupt family court system to the wall once again, in his full-sized expose, The Worst Interests of the Child. Here is a man who stands 180-degrees apart from the kind of men described by mothers' custody attorney Richard Ducote as "breastless men," men who deliberately, maliciously, and relentlessly torment their female ex-partners in the cruelest of ways: by separating her from and harming their children. I happen to know a lot about this topic, as I have worked or interacted with thousands of women who have lost their children under the very same kinds of circumstances described by Keith in this book. The entire book rebounds with truth and resonates with integrity. I read it straight through in one sitting--that's how strong his message is; I couldn't stop until I got it all. Get it, read it, and weep for this generation's children.

Keith blew me away with how well he got the reader to digest such a horrific and unbelievable travesty happening secretly to millions of children all over America and many more abroad. Could not put the book down even through the tears and tragic events. -Aleah"Author of A Little Lynched: Amber Alert A Judge Ordered Kidnapping"

Very meticulously researched, beautifully packaged book carrying horrible, timely, essential information for any citizen who believes the justice system needs reform (or in these egregious cases, serious scrutiny followed by outraged action rather)--or perhaps mainly, for anyone who believes our system works just fine as it is. All is not fine. In instances recounted in this book, and which I know apply far beyond its scope, all is the evil opposite of fine. This is not theory--it's hard hitting facts told in the author's insistent, passionate yet soundly journalistic prose. Keith Harmon Snow cuts right to it--please, please take the time to read this book and share it--widely--with others. #weneedtoknow

If we had seen in the news that children in some faraway place were being ripped from their mothers and forced to endure horrific lives, we would pay attention. When it happens every week in our own country, we look the other way. Our own media doesn't even see it as a priority. Until someone experiences, first hand, or personally witnesses the corruption of family court, they do not believe that it could possibly be such a regular and frequent reality. Someday it will come out in the open, but that day might be far away, and it will be far too late for far too many children. I hope this book lands in everyone's hands.

Learn the truth that is happening to millions of moms and children in divorce / family court. It is truly an epidemic that is destroying millions of lives so that judges and lawyers can profit off trafficking children! Learn where America is heading - cause you may be next...

THE most important book published this year, if you read it and truly grasp how deep and ugly and horrible and SYSTEMIC this is, you'll agree. The women and children destroyed by this system daily must be heard.
