# Home Game: An Accidental Guide To Fatherhood

### **Synopsis**

The New York Times bestseller: â œHilarious. No mushy tribute to the joys of fatherhood, Lewisâ ™ book addresses the good, the bad, and the merely baffling about having kids.â •â •Boston Globe When Michael Lewis became a father, he decided to keep a written record of what actually happened immediately after the birth of each of his three children. This book is that record. But it is also something else: maybe the funniest, most unsparing account of ordinary daily household life ever recorded, from the point of view of the man inside. The remarkable thing about this story isnâ ™t that Lewis is so unusual. Itâ ™s that he is so typical. The only wonder is that his wife has allowed him to publish it.

#### Customer Reviews

It's kind of interesting that two excellent Berkeley-based writers named Michael both happened to come out with a book of ruminations on modern fatherhood (and its corollary, manhood) within a few months of each other. Since we added a second child to our own household a few months ago, and I'm now on (unpaid) leave to take care of him for a few months, this struck me as a good time to check out what two writers I greatly respect have to say on my current profession. (The other book is Michael Chabon's Manhood for Amateurs). To a certain extent, both authors grapple with the state that Lewis articles in his introduction: "Obviously, we're in the midst of some long unhappy transition between the model of fatherhood as practiced by my father and some ideal model."Unfortunately, Lewis has set such a high bar with his past books (Liar's Poker, Moneyball, and The Blind Side), that this loosely assembled patchwork of journal entries and Slate.com essays

ends up being a total disappointment. It's kind of stunning to me that someone with his powers of both analysis and storytelling managed to say absolutely nothing interesting, provocative, or even amusing about being a father in this new age of fatherhood.
