A Dictionary Of Modern Legal Usage

Synopsis

Garner's Dictionary of Modern Legal Usage gives authoritative guidance on all the vexing questions that legal writers face, from correcting grammatical errors to framing legal issues to distinguishing between similar but distinct legal terms. With great detail and care, Garner explains what legalese is, how it can be simplified, and how far legal writers can go in simplifying it. The topics are alphabetically arranged for ease of reference: simply look up any phrase or grammatical category you're interested in, and you're likely to find the final word on the subject. Shortly after the completion of this massively expanded second edition, the late Charles Alan Wright said: "The first edition of this book has been praised around the world as both the most reliable guide to legal usage and the most fascinating to read. The second edition outdoes even its predecessor."

Book Information

Paperback: 953 pages

Publisher: Oxford University Press; 2 edition (1995)

Language: English

ISBN-10: 0195142365

ISBN-13: 978-0195142365

Product Dimensions: 8.9 x 2 x 5.9 inches

Shipping Weight: 3 pounds

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (22 customer reviews)

THIRD EDITIONAn appreciation by Phillip Taylor MBE and Elizabeth Taylor of Richmond Green ChambersIt is ironic, is it not, that `legal language' quite often seems opaque and all too often is so; unfortunate too, as the law is based on words, forms of words, meanings of words and their interpretation, connotation and usage. One wonders how often cases have been initiated, then won or lost because someone or other has misconstrued or misinterpreted some word or other - or some phrase or other.If you're a lawyer, legal scholar, student, or generally someone who is fascinated by the power of language and who seeks to speak and write with clarity, precision and force, Garner's Dictionary of Legal Usage is the resource for you. Here it is from the Oxford University Press in a new enlarged and updated third edition and a remarkable work of lexicography it is.But it's not just a

dictionary. It also functions as an authoritative guide to style, grammar and usage. As you look up each word, you are offered not just a definition, but a discussion of its significance, its origins, indeed all its aspects pertaining to law, complete with meticulously cited sources. Prolifically and painstakingly (and often entertainingly) the learned editor, Bryan A Garner, internationally acknowledged as a top authority on legal usage, seeks to blow away the cobwebs of complexity and confusion which may surround any number of terms. 'Testatorial, testorial, testatory' is an example. What's the difference? What is the most common form? Is there a reference to the OED? Look these up if you wish to know. You'll find them just before the word 'testatrix', which the editor quite rightly has a down on. 'This word is useless,' he growls.
