Best Sellers Rank: #75,946 in Books (See Top 100 in Books) #92 in Books > Humor & Entertainment > Puzzles & Games > Crosswords

Customer Reviews

We have tried a number of these and find that each one is a mix of levels from no brainers to things that are so obscure that I swear that not more than five people on earth would know the answer. Also a fair number of items require a real stretch of the imagination to connect the clue and solution. I would not buy this again.

I loved this book. I'm a crossword puzzle novice--hadn't tried one in over 30 years. I got this book when I was recovering from an illness, and I loved every puzzle. Yes, I worked them all. These puzzles were a perfect level of difficulty for me. They required knowledge I didn't even know I possessed. I struggled a bit at first, but as I went through the book I noticed that my memory sharpened. The answers came easier. And I realized with amazement that these puzzles were exercising my brain. I did try another "easy" crossword puzzle book I picked up at an airport and

found it boring. It consisted of straightforward questions about facts, and I gave up after a few puzzles. I thought about what made this book so much better, and realized it was the little puzzles within the puzzles. Everywhere there are clues that aren't straightforward, that require thought, that require solving a few cross clues to piece together the solution. Every time I solved one of these little puzzles I went "aha!" and I smiled. I can't help but think that the creator of these crossword puzzles had a great time doing so.

Each Crossword has words you can get easily, words that you have to think about, and things I would never know. I am a beginner crossword puzzler and found this to be a good starting point. However I would not call it "easy."

I bought this last year for my girlfriend as she loves crossword puzzles but did not want any that were too difficult. She has been very pleased with this book and she still has about half a book to go worth of crossword puzzles. I highly recommend for the crossword puzzle lover in your life.

its ok, but, not really that good. supposed to be easy. only thing easy is the size. some of the things asked for I have never heard of. I do like puzzles to make me think some and be a little bit challenging, but, not such weird stuff as "capital of muscat", mosque tower. I had to look up a lot of answers and that I do not care for. so , I wouldn't buy this one either. very unhappy with my selections on puzzle books.

Unfair clues. This is NOT an easy book. Mr. Timmerman seems to have confused short with easy. The clues are esoteric, obtuse, and generally unfair, e.g. an old knife in his puzzle is a "snee", hardly a word on everyone's lips.

This is a great book for beginners. It is a mix of easy clues and more challenging clues which keeps it interesting and gives one a chance to stretch the brain cells while still being fun to do. I find that when I finish one puzzle, I often start another because it is so enjoyable.

Received this book because I was duped by the "Giant" which I thought meant giant print. However, it doesn't say that, it says Giant book, etc. I returned the book because I can't use it; I can't see very well and need giant print which this book isn't. Otherwise, it's just another crossword book, but nothing special.
