Legal Thriller: Predatory Kill: A Brent Marks Legal Thriller (Brent Marks Legal Thrillers Book 2)

Synopsis

Can "Too Big to Fail" get away with murder? Experience the suspense and mystery of this #1 best selling financial thriller and courtroom drama by the best-selling legal thriller author critics hail as "One of our strongest thriller writers on the scene." 2015 RONE Award Nominee for best legal thriller Rocketing to the top of 5 paid best seller lists, Book 2 of the Brent Marks Legal Thriller Series has been called a "wild ride" by critics. In it, Kenneth Eade delivers another solid and intricately plotted financial thriller. A maniacal killer is on the loose. April's mother is brutally murdered and her father beaten within an inch of his life. Attorney Brent Marks has already paid his dues as a lawyer, having taken his share of small cases over his 20 year career in law, but has finally reached a place in his life where he can take cases for justice & principle. What he least expected was for April Marsh's predatory lending case against the big banks for wrongful foreclosure on her parent's home to turn into a murder investigation. Can the court deliver justice before the action outside the courtroom spirals out of control? Searing, exhilarating and topical, *Predatory Kill* puts a new spin on the greatest financial crisis of the age #1 Financial Thriller best seller #1 Political Thriller best seller #1 Pulp Thriller #1 Legal Thriller best seller #1 Crime Noir Thriller See what critics are saying "Fans of John Grisham will find equal talent here in Eade's ability to captivate and hold readers with the unexpected, both in character development in nonstop action which lays the foundation for a story that's anything but predictable. The realistic dialogue is simply killer; while action points in one direction, then often takes a 360-degree turn. In a world where plot and outcome are often predictable from the start, this will prove more than satisfying to readers already well versed in the legal thriller format." Midwest Book Review Discover what others already know "If you are a fan of fast-paced, action-packed thrillers that combine corruption and murder with courtroom drama, then 'Predatory Kill' by Kenneth Eade is the best choice you could ever make. The author's compelling writing and brilliant dialogue will remind you of John Grisham's first novels. A master of mystery, thriller and suspense, the author is already well-known for his bestselling novel 'An Involuntary Spy', for which he was praised by both critics and reviewers." NY Book Examiner "Kenneth Eade is the well-known author of the bestselling political thriller "An Involuntary Spy". Recently, he has published his second novel, "Predatory Kill", which is an edge-of-your-seat legal thriller that will take readers by surprise and raise some thought-provoking questions about law and justice in the world we live in today." Independent Publisher News "Eade is a master of dialog and presents a well developed fictional tale that is full of drama both inside of the courtroom and out. Of course, this is a work of fiction, but the premise is believable and hooks you right away. The RICO statute has been used to prosecute many facets of organized crime; why not the perpetrators of the largest

investment fraud in the 21st century? The hero of the story, Brent Marks, is tough to sell on his client's claims that the foreclosing bank is responsible for her parents' murder, but as the case unfolds, the evidence seems to mount up. Fact or fantasy, the issue of banks being above the law is a fact, and the murder angle makes for an excellent metaphor, well deserving of five stars. " I look forward to reading more Brent Marks legal thriller books and highly recommend this book to lovers of legal thrillers." Carolyn KnowlesBuy "Predatory Kill now.

Customer Reviews

First, please disregard the one-word descriptions above: they are the "codes" that MUST be used to get to this personal review box. What I really think is certainly nowhere near as flattering! I know that the writers associated with the many "publishing houses" owned by are rarely accomplished writers; however, they are willing to pay for their books to be published, or they submit their work for free--and seems to be quite willing to accept any collection of "sentences" for publication. I know these publishers are staffed with .com employees who are referred to as "editors;" but, the title seems to bare little resemblance to real-world editors. (I believe that the majority of "excellent" reviews of .com books are written by these editors--they must have to do SOMETHING--and the books that are published are certainly not being edited.)This book,"Predatory Kill," is an example of

no-to-low standards for book publishing. If the purpose was to produce a sample case for law students to review and determine if all the steps necessary to present and plead this case, then maybe...just maybe, it has some value. If you read courtroom novels for the excitement, the intelligent ideas, the how-did-he-ever-come-up with THAT idea; you'll never find that in this book nor, I doubt, in any other book from this author. His characters are flat: Brent Marks is seemingly void any human emotion: his mourning for his friend is superficial at best, his "attraction" to Angela is wooden--almost non-existent. The line, "they kiss." is as exciting as this author gets! Any one who compares this author to John Gisham is clueless as to what makes a great courtroom drama.
