Customer Reviews

Card games are pretty exciting in the way they allow you to think outside of the box and beat the opponent only using brains to outsmart him and Blackjack is one of the most exciting. I read this book carefully and there are some pretty neat tricks in here that allow you to always be one step

ahead of everyone and develop your skills even further.

Impressive book! I wanted to learn some tactics on blackjack so i thought i'd pick up a copy of this book. I'm glad i did because now i'm confident when i hit the casino next time with my partner. Great read for a newbie like me. So much worth reading!

I always lose when we are playing blackjack with my friends. I want to learn more strategies and techniques to win this blackjack. I looked for guides about blackjack strategies and I found this book. There are great strategies in this book and I must try it because I feel I can win using it. I understand some moves that my friends using that showed in this book. I donâ TMt understand the chapter with using the card counting as an advantage.

I donâ ™t have any idea how to play the game Blackjack. This book talks about everything you need to know about the said game. It provides great tips and strategies that you can use to develop your skills and become a professional Blackjack player. It is indeed the ultimate book for you if you want to learn and be the master of the game. ï•

It's a nice book!!!. I want to learn more strategies and techniques to win this blackjack. I looked for guides about blackjack strategies and I found this book. There are great strategies in this book and I must try it because I feel I can win using it. I read this book carefully and there are some pretty neat tricks in here that allow you to always be one step ahead of everyone

This book really helped me understanding Blackjack, very easy to understand, great basic knowledge and brilliant tips and strategies. I feel confident now, going off to play - of course as the book states- you need practice to become a winner. I highly recommend this book both for beginners and for experienced players!

I cannot really imagine who might find this silly book useful. Maybe it was aimed at the Las Vegas conventioneer who had the afternoon off and for the first time in his life wandered through the casino floor and wondered what that Blackjack game people were playing was all about. Great information: Try to get as close to 21 as possible without going over. Having that terrific nugget under my belt, I'm ready to go bring down the house.
