## Customer Reviews

This book is tiny, like a small paperback. A quarter of the puzzles are sudoku, a quarter crosswords, a quarter word search, and a quarter different (more interesting, in my opinion) word puzzles.

As I am recovering from total knee replacements (4 months apart), I've had several books with a variety of puzzles, and enjoyed them. This one is disappointing. First, the size is awkward, and you have to break the binding to actually USE the book. Second, the reference to the solutions pages is lacking. Third, the crossword puzzles are very poorly constructed, with few letters used multiple times, making them hard to solve.

Purchased this book on a whim, to play around with during a long plane trip. It is better than expected. The sudoku puzzles go from easy to challenging - which is good but normal. The word search puzzles have no interest for me. It is the mind games which are a welcome change and took my full attention. Many of them use basic math and require logical reasoning. Refreshing. Only

slight negative is the size of the small print. No place to make calculations.

Haven't used yet but obviously meets its intended purpose. Didn't give it a five star because the size is a little too small. Wish it was bigger so it could hold open itself while using. Other than that, a good purchase.

Nice size book for traveling and nice variety. I did not give it 5 stars because of its lack of flexibility. It is difficult to get to some of the puzzles that fall in the fold.

Fun games, but some of the math games have mistakes in the answers. Some are typos, but one is an order of operations mistake. You would think they'd have a math person proof read.

My son loves this book. We have it hanging inside a back-of-the-seat car holder and he uses it while we travel. He loves that there are even Pokemon-related puzzles!

I have had HOURS of fun and discussions over the puzzles with my coworkers. Well worth the few dollars spent! Thanks!
