## Customer Reviews

I purchased the new "Million Word Dictionary", thinking it would be maybe just a bit better than any other dictionary. Guess what? It's a MILLION times better than my old Dell dictionary, and the New York Times dictionary that I have used for years. (they have now been sent to the attic). One of its greatest features is that all the capitols are located together, as well as the rivers. Who won the Nobel Prize for literature in 1934? Turn to page 776, and all the Nobel Prize winners are listed. It doesn't matter what you are looking for, movies, sports, actors, foreign names. Its all there, and real easy to find. I am not much of a TV watcher, and I was pleasantly surprised to find so many entries on TV personalities and the shows. I have been able to finish many more puzzles, as a result of having this book. Having this dictionary handy, when I get stumped, is almost like having you the author next to me, giving me the answers. A truly great Crossword dictionary.

I bought this book for my father. He says it's the greatest book around for working crossword puzzles. The only problem he has with it is the print is very small and he has a difficult time reading it with his 67yr old eyes. He gets by with a magnifying glass, but said he'd like to have one with bigger print.

Crossword puzzles are popular than ever. A newspaper just isn't complete without one. Authors use them as a backdrop in their mysteries. In addition, the crossword obsession is often spoofed in movies and on TV shows. They are a part of our everyday world. Die-hard puzzlers will come to value The Million Word Crossword Dictionary. I'm not a die-hard puzzler, but I can appreciate the hard work that has gone into it. Comprehensive doesn't cover the amount of content in this 1268 page dictionary. Although the print is small, it is set up in an easy to read manner. The book offers words for single and double words. It includes typical words as well as celebrities, artists, authors, chemists, noblest, slang, popular phrases, movie titles, etc. Moreover, if you don't find what you are looking for, you can contact the authors through the snail mail or email addresses included in the

book.

I absolutely love this book. It has helped me to finish crosswords that I otherwise couldn't. It is the most comprehensive dictionary of its kind that I've seen (and I own quite a few). Now I don't need them anymore. I especially like the format. Not only are words listed giving the number of letters, but if a clue is blank something, or something blank (ex., Sao---, or ---nova) this dictionary has a listing for it. It also includes popular movies and songs, actors, and other famous people, winners of awards, ex. nobel prize winners. It is definitely the best of its kind around. It isn't perfect, but it's pretty close. I gave this to my father-in-law for a birthday gift, as he is also into crosswords and he loved it too.

I purchased the hardback and now am buying the soft back, so I can take it with me when I travel. Absolutely the best organized, easiest to find answers, and most comprehensive I have found to date. I have 5 crossword dictionaries and use this one 99% of the time. If you are looking for a crossword dictionary that will really help, this is the one.

After using the Million Word Dictionary for the past 2 months, I have almost abandoned 4 other references that I was using prior. This dictionary has factual, up-to-date info for puzzle solvers, trivia buffs, or anyone else interested in advancing their knowledge of Movies, Geography, the Arts, Music, Sports and hundreds of other topics. I have worked crosswords for many years and many times have been frustrated by the lack of needed info on a number of topics. To the rescue, the Million Word Dictionary has been the answer to all my frustration. I highly recommend the addition of this reference to your library.

You would not choose this as your first crossword puzzle dictionary from size (6 cm thick) or weight alone. If you already have 1 or 2 this one is great. It's new - 2004 - so lists are up-to-date. Arrangement is alphabetical with lists, people, abbreviations, etc. included in one A to Z continuum. More info than normal - eg a person's name may include parents, school, books written, etc. Movies are listed with info about each although one may show actors and director while the next shows producers and director. More lists (Canadian Prime Ministers) are included than normal. In short, you will still prefer to make first use of smaller, more convenient Xword dictionaries but this is a boon to serious solvers.

I love this Million Word Book!! I so appreciate the Authors for working so hard compiling this wonderful Book that's helping me continue with my puzzles. I'm 60 years old and my brain is a little foggy and this new Book is helping me stay alive. Thank you Stan and Dan for all your Super puzzle solving helpmate. Gloria McGraw
