Customer Reviews

"On the subject of books, permit me to suggest a newly-released title that will make great reading for you or for those Canadian history buffs on your gift list."Inside Camp X', by Lynn-Philip Hodgson, recounts the fascinating story behind the top-secret training school for spies established in 1941 by William (A Man Called Intrepid" Stephenson, smack on the border between the then rural communities of Whitby and Oshawa.Until now, only a small cairn and plaque have reminded us of the important role played by Camp X and its "students" in the successful outcome of the war.Now, thanks to Hodgson's detailed and colourful accounting, the story can be better understood and appreciated."Mike Filey - The Way We Were The Sunday Sun (Toronto)

The true lover of history can understand the maddening frustration of knowing something compelling existed once so very close nearby, but with the passage of time is now so far, far away, never to be touched or seen again. So it is with this saga of the mysterious Camp X. The author abley goes beyond the mere reference to "...a man called Intrepid", and adds flesh and bones, and breaths life into the ghosts of a secret establishment that is credited with shortening the war in Europe by some six months. To anyone even remotely interested in the secret machinations of warfare, this is must reading. Purveyors of agent 007 need look no further than this compelling book to see the real stuff of "...quiet warfare"---how it was developed, how it was trained, and how it was executed, in all its

unheralded successes, and equally muted failures...

From the moment I started reading this book I couldn't put it down until it was finished. This has to be one of the most incredible covert operations of WW2. From Sir William Stephenson's start-up operations to the closing at the end of the war, it takes the reader through the intense training, discipline, and secretive world of intelligence. And all this took place right in the Whitby/Oshawa area. Until I read this book I was totally unaware of how intriguing and historical this area was. Thank you for a well written, well researched and highly informative book.Frances Whelan

" 'Inside - Camp X', mystery, intrique, and secrets are all unfolded in the book in a way that will surely captivate even the most slothful of readers." " The book demonstrates how even without a lot of primary documents available, a story can still be reconstructed accurately and made ready to inform generations yet to come. Little having been actually written on Camp X, the author has successfully prevented the story from being effectively truncated from our history forever." Publishers, Family History News, Oshawa, Ontario

absolutely fascinating, Lynn Hodgson did a great job in preserving some great history of world war II all of Canada should be very proud of him. The book makes you feel like a member of the camp x team. I look forward to Lynn's next book.

This intriguing book unveils the unique training centre, a spy school, established during the second world war near Oshawa, Ontario Canada by the world greatest spymaster, Sir William Stephenson, the man called "INTREPID". Lynn-Phillips Hodgson book 'Inside-Camp X" depicts in narrative and historical photographs the intriguing story of the men and women who were trained at this camp to be spies and saboteurs. Once they graduated their new job was unlike any we would aspire to. These new graduates were transported from Canada and dropped behind enemy lines. For the first time, we, the readers are taken into this world of espionage training, introduced to many of the silent heroes who committed themselves to the most dangerous of military tasks during the war, to parachute behind enemy lines, to disrupt the German war machine, to organize the resistance underground forces, and in many cases they lost their lives to achieve their goals. This book is their legacy to all of us who benefitted from their unswerving dedication and committment to end the Second World War. They are the graduates of the most unique training school the world has ever know, they are the men and women from 'Inside - Camp X'.

Inside Camp-X As a young boy who moved to Canada in the late 60s, I actually snuck into Camp X before it was turned over to the Fire department for controlled burns, what a historical tragedy! I had no idea of the significance of this historical site until reading Inside Camp X! This is a fascinating book about the little know realm of Secret Agents. To think that Ian Fleming trained there which led to one of the most incredible movie series of all time, James Bond, is incredible history for Canada! In fact, I was so enthralled with the character of James Bond; I named my son after the greatest actor to play the roll! And now Sean is serving in Afghanistan with US Army Intelligence - - go figure! There is so much more to Camp X than most people know! Alumni went on to become directors of the FBI, and one of its alumni went on to be one of the founders of the Green Berets! Anyone with an interest in Intelligence, espionage, and elite military operations must read this book, it all started here! All of Lynn's books are wonderful reading and I highly recommend them!
