If you want to put a lot of money in your pocket fast, this system is for you. The author claims it wins over 90% of the time, and I have verified these results. I am winning over 91% of my sessions and chuckling all the way to the bank!The system produces consistent winning sessions with infrequent losses. I also play blackjack and poker, and without a doubt I am making more money at the crap tables using the Advantage Craps strategy than I ever did at blackjack or even poker.I know this flies in the face of conventional thinking that a game of chance can't be beaten. That is what I believed too before experiencing the power of this system.If you really want to beat the casinos, here is your chance. I give Advantage Craps my highest endorsement!

If you want to learn a proven method of winning at craps, then I recommend this manual. It contains a complete step-by-step set of instructions that make learning how to win easy, even if you have never played the game. I had not played craps prior to reading "Advantage Craps." I am now able to win between \$300 and \$500 per day betting small. If you want to learn how to play the game correctly and make a lot of money playing, then you must purchase this manual. I also liked the ...free coupons I got with the book. This makes this book the bargain of the year. Before you risk a dime in any casino, buy this book, try this system and prosper!

I was a winner with this book. Yes, I loss some money at the tables, but I did come out ahead on two out of three sessions at 3 different casinos. When I didn't follow the book to the letter I got hammered. When I followed the rules I won. I don't think I would have made the money I did without this book. It's worth the 29 bucks. I made that back 20 times over.

Two basic techniques are recommeded here: 1) Placing the 6 & 8 and continually doubling your bet until either the 6 or 8 is hit. For myself, this technique is too hard on my nerves. A typical progression would \$12-12 on the 6 & 8, then \$30-30, then \$60-60, then \$120-120. If either the 6 or 8 hit, start over. I do like the come bet system. This system requires you to add to your bets only when you are winning. This author claims that he makes some serious money using these techniques. I don't have the nerve to try the steep progressions that he recommends. Maybe you do.

I have purchased a number of systems that have been published by Silverthorne Publications. While this is one of the better methods I have seen it is still just a overglamourized version of what you can find in many books costing half the price. The truth is that unless you hit a hot streak or a semi hot streak in the long run you end up loosing more money than you win. I rated this two stars because the progression that you get to use when you hit a hot streak is very good and very profitable; however, if you dont hit that streak you will slowly deplete your bankroll. I would like to warn everyone further on Silverthorne Publications. I recently purchased an online system from the company and they debited my account four times for the one system. When I asked for my money back for the three extra times I was ignored. I was ignored a total of three times even when threatening to get my lawyer involved. When some investigating was done I found no listing for a Silverthorne Publications, no listing at the address they use, and a disconnected phone number. When I dove deeper I found no records at all of a Martin J. Silverthorne. Buyer beware.
